It is submitted that a pre-feasibility study is scheduled to be conducted on October 27-28, 2022.

Since the matter was directed to appear today only to ascertain that the preliminary exercise had been conducted for the new greenfield project, let this matter appear four weeks hence.

The AAI points out that some initial payment has to be made by the State. The State submits that a sum of Rs. 23.60 lakh has already been

paid and other initial expenses for the pre-feasibility study will be taken care of by the State without any impediment.

The State will also make every endeavour to ensure, as directed earlier, that there is no encroachment in and around the area. For such purpose, again as directed earlier, aerial or drone photographs should immediately be commissioned so that false claims that are likely to come up may be dealt with appropriately.

List on November 11, 2022.
